In front of Gate leading to WHILL CR section

OSCHWINTER was most disturbed because we've been sending so much material to the RIV and not sending this material to UPHILL. He cited a memo on Subject as an example, and said that just to prove the point, he had received a translation of the stuff from the RIV. Why hadn't we sent it to him, etc.

GOCHSITER asked me what this blue paper stuff is. He thought we always used yellow paper for our memos. I said that it indicated that the material was to be treated as sensitive, and GOCHSITER immediately asked why info on [] [] GIBSON wasn't coming from the undersigned to him. I asked if the memo was addressed to him, and he countered with the query as to who is GIB? I informed him, and he repeated the statement that he thought all info on [] [] came to him from the undersigned. I then asked whether the blue memo he was concerned about was addressed to someone other than he, and he admitted that it was. He said that there were actually two memos, both info from [] and that one concerned SICZERA and the other concerned coordinated activities of Hung IS with Polish IS. I said that I didn't know about the two memos in question but would check.
